Good day,
As a person who cares about the homeless and helps assists them into housing, I am for the passing of the not in the median ordinance.
How can I be for helping them and still be for this? Safety. The number of people being struck by automobiles is rising. Distracted driving, people veering to avoid collisions and unsafe pedestrian behaviors are all contributing factors.
The resources are available to get the homeless off the streets. Over 1200 shelter beds, hotel vouchers and drug/alcohol recovery programs are all available. I was also able to assist two of Milford's mental health issues with placement for their appropriate housing. This is not a they have no other choice situation.
The chronic homeless on your street corners are profiting from your lack of enforcement. They are receiving money and costing the city services money by repeat medical/emergency cost. It is effecting the city visually and economically.
If they were not able to be on the streets, they would be more likely to choose housing options. You are truly making being an addict profitable.
The unsafe and heartless practice of allowing this to be a way of life is cruel. You will hear plenty of "you have no heart sayers stating exactly the opposite. As someone who has helped people into appropriate housing options, I can state this with factual information and experience.
As the Chairperson and a Delaware citizen, I urge you to pass the ordinance to keep the pedestrians off the medians.

We have a heart and a mind at Milford Homeless Action Committee.
